

COMPANY PROFILE

"To our clients, partners, and community - thank you for your trust. As an Emirati-founded company deeply rooted in the UAE, we're here to build not only your projects, but a legacy of excellence that honors our nation's values."

إلى عملائنا وشركائنا ومجتمعنا - شكرًا لثقتكم بنا، بصفينا شركة إماراتية تأسست محليًا ومجذرة في دولة الإمارات، نحن هنا
"للتشيد ليس فقط مشاريعكم، بل إرثًا من التميز يتجسد ليم وطننا"

— *Muhammad Almohtsen*

CEO/Owner

INTRODUCTION

Developed and modernized contracting company, HAMDAN AL MOHSEN BUILDING CONTRACTING has been established in 2002 in Dubai, in the UNITED ARAB EMIRATES. The company has been established by forming a highly motivated team of engineers & support staff with long track records in the U.A.E. It has built its reputation by introducing innovative state of art technology in concept, development, design, planning, controlling and execution of projects. We believe that our success relies on our commitment to understand and meet our clients' requirements for safety, quality, timely and value for money. Our Company focuses on client's satisfaction and building a long-term business relationship. We are committed for continuous improvement in this fast-changing environment and technologies.

Along with its designing & engineering expertise, the team is dedicated to providing unique turnkey solutions to commercial renovation projects, interior design, fit-out, refurbishing, and landscaping services for multi-discipline sectors.

Today, we stand tall knowing that our journey has been and is worth it!

VISION

HAMDAN AL MOHSEN BUILDING CONTRACTING has built its strength from their philosophy of "single source solution through effective team approach" and undertaking projects, no matter how large or small, under its renowned guarantee of "quality and in-time completion."

MISSION

This growth can be attributed to the ability to undertake, successfully execute and complete a variety of projects under the management and supervision of experienced administrators, project managers, engineers and employees, supported by adequate transport facilities, machinery and equipment.

QUALITY POLICY

HAMDAN AL MOHSEN BUILDING CONTRACTING is always committed to meeting all the requirements of its clients and regulatory bodies and at minimal cost. All employees are responsible for the quality of work carried out on civil, interior/exterior designing services and steel structure.

In summary, our quality policy is:

- Know all our clients requirements and expectations.
- Always meet those requirements and expectations.
- Do everything right from the first time.
- Do things even better next time.

MAINTENANCE SERVICES

With years of hands-on experience, our company delivers reliable, high-quality maintenance services across residential, commercial, and industrial properties. We cover all aspects of civil and structural maintenance, along with expert care in MEP systems — including AC, electrical, and plumbing works. Our team also handles home and office cleaning, minor renovations and uplifts, as well as interior and exterior painting and wall decoration. Every task is carried out with precision and care, ensuring lasting results and client satisfaction.

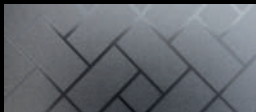

AUTOCAD SERVICES

Our company also provides professional AutoCAD drawing services tailored to meet all construction and design requirements. Whether for new builds, renovations, or structural modifications, we create precise and detailed drawings that align with project specifications and regulatory standards. Our team is experienced in preparing documentation that can be submitted for official approvals from the Dubai Land Department, ensuring a smooth and compliant process from planning to execution. With accuracy and efficiency at the core of our drafting work, we support every stage of construction with clear, high-quality visual plans.

ALUMINUM DIVISION

Hamdan Contracting proudly offers a specialized Aluminum Division, delivering high-quality, custom solutions for both residential and commercial projects. Our services include the fabrication and installation of aluminum windows, glass doors, curtain walls, sunblasters, and facade systems—combining aesthetics with durability and energy efficiency. With precision engineering and a focus on sleek, modern finishes, we support architects, developers, and homeowners in creating bright, functional, and visually striking spaces. Whether for villas, buildings, or retail spaces, our aluminum works are crafted to meet the highest standards of design and performance.

SOLAR ENERGY DIVISION

As part of our ongoing commitment to innovation and sustainability, Hamdan Almoheisen Building Contracting is proud to introduce our Solar Energy Division — offering cutting-edge, environmentally friendly solar and battery systems for both on-grid and off-grid applications.

Our goal is to make clean energy accessible, reliable, and economically viable across residential, commercial, and industrial sectors.

RESIDENTIAL SOLAR SOLUTIONS

We offer tailored solar energy systems for private homes and villas, providing clients with a cost-effective and sustainable alternative to conventional power sources.

- **Rooftop Solar Systems:** Custom-designed systems that harness maximum sunlight and reduce monthly utility bills.
- **Car Parking-Mounted Solar Systems:** Dual-purpose structures that offer shade while generating clean power — ideal for villas, residential compounds, and community developments.

COMMERCIAL & INDUSTRIAL SOLAR SYSTEMS

For businesses, factories, warehouses, and institutions looking to reduce operational costs and carbon footprint, we deliver robust, scalable solar solutions.

- High-efficiency systems for warehouses, factories, malls, and offices
- Grid-tied or hybrid systems with advanced energy storage options
- Customized design to match business usage patterns and ROI targets

SOLAR PRODUCTS TRADING

Our trading division supplies a wide range of high-quality solar products sourced from trusted global manufacturers.

- Solar Panels (Monocrystalline, Polycrystalline, Bifacial)
- Hybrid and Lithium Battery Storage Units
- Inverters (String, Hybrid, Off-grid)
- Mounting Structures and Accessories
- Smart Monitoring & Control Systems

Whether you're a project developer, contractor, or distributor, we offer competitive rates, reliable stock, and logistical support across the UAE and MENA region.

PRE-FABRICATED HOUSES

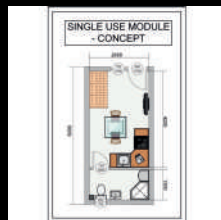

Hamdan Contracting Company is proud to announce the launch of its newest division: European-Style High-End Prefabricated Houses, designed to meet the growing demand for fast, efficient, and modern housing solutions across the UAE and beyond. These prefabricated structures are engineered with precision, combining European design standards with durable materials suited for the region's climate. Manufactured off-site with high-quality finishes and delivered ready for installation, our prefab houses offer a seamless blend of style, sustainability, and functionality. Whether used for permanent living, guest accommodations, or business spaces, each unit is built to reflect our commitment to excellence and innovation.

Available in a wide range of configurations, our prefab houses come in sizes from 30 square meters to over 2,000 square meters, depending on the client's needs. From compact studio layouts to spacious multi-room villas and commercial units, we offer full customization of floor plans, finishes, and façade options. These modular structures are designed for quick deployment and installation, with full delivery and setup managed by our expert team.

Whether you need a single unit or a full complex, our prefab solutions deliver premium quality with unmatched speed and efficiency.

These structures are not only perfect for residential living but are also ideal for farmhouses, commercial shops, service blocks, parks, garden rooms, and resort-style lodges. With options such as glass-front façades, wooden cladding, modern insulation, and elevated roofing styles, we offer a diverse portfolio to suit every aesthetic and functional requirement. From sleek city-style cabins to rustic countryside chalets, our prefabs can be tailored to suit a wide range of environments. Visual documentation, including photos of on-site crane installation, modular assembly, and completed sample units, will be available to showcase the build process and finished results—bringing our clients full confidence in the quality and craftsmanship of each build.
